The exam contains approximately 121 questions to be answered in 90 minutes. Some of these are pretest questions that will not be scored. There are three separately timed sections. The three sections are weighted so that each question contributes equally to the total score. *I was in my last semester of high school and wasn't sure that college was right for me. I'm so glad that I enrolled in Ms. Howard's dual credit humanities class. I learned about different cultures and perspectives while I developed college study skills. With help from my instructor, I saw what I could accomplish and how I could be successful in college.*

*Now, I'm a freshman at BCTC working on my associate degree. After graduating, I hope to attend Eastern Kentucky University for business and, one day, own my own clothing store.*
